SUBJECT INDEX

JOURNAL OF STEEL CASTINGS RESEARCH

ISSUE NOS. 38 - 64

Key to Index - Number before slash = Journal No.; Number after slash = Page No.

Casting Design and Application	39/15; 44/1; 47/4; 51/6; 52/1; 53/10; 59/1; 59/9; 60/1; 60/12; 62/12; 64/7
Casting Processes	41/12; 42/11; 43/6; 45/15; 46/11; 48/1; 53/10; 54/1; 55/9; 59/8; 59/9; 62/1; 63/1; 63/8; 65/1
Cleaning, Repair and Finishing	43/1
Education and Training	52/1; 57/11
Foundry Equipment, Mechanization and Layout	50/4; 59/9; 59/10; 62/1; 62/3
Gating, Risering, and Pouring Techniques	42/1; 51/8; 54/1; 62/1
General	38/1; 38/2; 57/11; 64/2
Heat Treatment	42/6; 47/4; 48/1; 49/7; 51/6; 61/12
Melting and Steelmaking	39/12; 41/1; 41/9; 42/6; 43/11; 44/9; 46/1; 47/1; 47/4; 49/1; 53/11; 54/15; 56/5; 62/3; 62/10
Molding and Core Making, Materials and Testing	39/2; 40/1; 40/11; 40/15; 41/9; 41/12; 42/11; 43/6; 46/11; 47/11; 51/1; 53/1; 54/1; 55/3; 58/8; 59/8; 59/9; 59/10; 60/7; 60/10; 63/7; 63/8
Nondestructive Testing	45/1; 49/1; 51/12; 60/7
Patterns and Patternmaking	51/8; 52/1
Physical and Mechanical Properties, Materials Specifications	39/10; 41/1; 42/6; 47/7; 48/1; 48/12; 49/7; 50/1; 52/5; 53/10; 54/9; 56/1; 57/1; 58/1; 58/12; 60/1; 60/12; 61/1; 62/12; 63/8; 63/11; 64/3; 64/7; 64/10
Physical and Mechanical Testing, Analysis	39/15; 41/14; 43/11; 44/1; 46/1; 48/11; 50/1; 51/4; 52/9; 52/12; 56/1; 57/1; 58/1; 64/7
Production Organization and Management	50/4
Solidification Phenomena, Structure and Defects	39/2; 39/12; 39/15; 40/1; 40/11; 40/15; 41/9; 42/10; 45/15; 46/14; 48/6; 48/12; 49/1; 50/1; 51/4; 52/5; 52/12; 53/1; 53/11; 53/13; 54/1; 54/7; 54/13; 55/1; 55/3; 55/8; 56/9; 56/10; 58/11; 58/12; 59/4; 62/8; 62/10; 63/1; 64/2
Welding	49/15; 52/5; 52/9; 52/12; 53/10; 54/7; 54/10; 59/9; 60/1; 62/7

CHRONOLOGICAL LISTING BY PAPER TITLE AND AUTHOR

Year	Journal No. / Page No.	Title	Author
1965	38/2	Subject Index for Issue Nos. 1 to 37 of the Journal of Steel Castings Research	SFSA
1967	39/2	The Wet Strength of Green Silica Sand in Relation to Scabbing and Sand Erosion Defects	V. Kennedy
1967	39/10	Corrosion of Cast Steels	C. W. Briggs, et al.
1967	39/12	Porosity in Plain Carbon Steel Castings Produced in Shell Molds	B. Cauwood, et al.
1967	39/15	The Evaluation of Discontinuities in Commercial Steel Castings by Dynamic Loading to Failure in Fatigue	Steel Foundry Research Foundation
1967	40/1	The Role of Fayalite in Sand Adherence	V. Kennedy
1967	40/11	Evaluation of Pan-X-Trol	R. G. Williamson
1967	40/15	The Wet Strength of Green Silica Sand in Relation to Scabbing in Sand Erosion Defects	B. C. Yearley
1967	41/1	Special Aluminum Deoxidation Alloys for Cast Steels	SFSA
1967	41/9	Gas Porosity in Steel Castings	J. Turton
1967	41/12	The Application of Fluid Sand Mixtures	L. Kucharik
1967	41/14	Comparison of Charpy V-Notch and Charpy Keyhole Impact Test Results	R. F. Duncan
1968	42/1	Investigation into the Behavior of Blind Atmospheric-Pressure Risers for Steel Foundry Casting Production	H. V. Dolwa
1968	42/6	Foundry and Metallurgical Aspects of 18 Percent Nickel Cast Maraging Steel	BSCRA
1968	42/10	The Effects of Surface Discontinuities on the Fatigue Properties of Cast Steel Sections	Steel Foundry Research Foundation
1968	42/11	Mold Production by the Fluid Sand Method	Kurt Beckius
1968	42/14	The Mold Vent Is a Bunsen Type Burner, Functioning at Almost Atmospheric Pressure	Douglas C. Williams
1968	43/1	Chemical and Ultrasonic Cleaning of Steel Castings	SFSA
1968	43/6	Use of Blast Furnace Slag Cements as Hardening Agents for Silicate-Bonded Molding Sands	W. Donald, et al.
1968	43/11	A Method for Direct Oxygen Determination in Molten Metals	J. K. Pargeter
1968	44/1	Influence of Discontinuities on the Fatigue Life of Crawler Shoe Steel Castings	M. T. Groves, et al.
1968	44/9	Application of the Basic Oxygen Process to the Steel Foundry	C. Roedere, et al.
1968	45/1	Ultrasonic Attenuation in Cast Ferritic Steels, A Review of the Associations Work	R. M. Murray
1968	45/15	Squeezing and Vibrating Steel Castings During Crystallization	V. I. Bobrov, et al.
1969	46/1	Oxygen Content of Cast Steels	R. G. Williamson
1969	46/11	Magnetic Molding	Dr. Ing. A. Wittmoser
1969	46/14	Burn-on in Carbon Steel Castings	P. V. Chernogorov, et al.
1969	47/1	Refining Liquid Steel in the Ladle	M. Imai, et al.
1969	47/4	Cast Steel with Nodular Graphite	F. Henke
1969	47/7	The Effect of Sulfur and Phosphorus on Torsion Fatigue of Cast Steel	M. T. Groves, et al.
1969	47/11	Sand Grain Surfaces do Carry "Soluble Silica"	Douglas C. Williams
1969	48/1	Effect of Surface Finish on Fatigue in Cast Steel	G. Das, et al.
1969	48/6	The Formation of Sulfide Inclusions in Cast Steel	P. P. Mohla, et al.
1969	48/12	The Effect of Internal Shrinkage Discontinuities on the Fatigue and Impact Properties of Cast Steel Sections	Steel Foundry Research Foundation
1969	49/1	Ultrasonic Attenuation Due to Aluminum Nitride Precipitates in Cast Steel	Alfred B. Steck
1969	49/7	Grain-Size Control by Thermal Cycling	L. F. Porter, et al.
1969	49/15	Recommended Practice for Repair Welding and Fabrication Welding of Steel Castings	Steel Foundry Research Foundation
1970	50/1	Fracture Characteristics of Cast and Wrought Steel in the Tough and Brittle Ranges	F. Heisterkamp, et al.
1970	50/4	The Application of Computers in the Foundry Industry	T. D. Law, et al.
1970	51/1	Sand Grain Surfaces do Carry "Soluble Silica," Study II in Boiling Water	Douglas C. Williams
1970	51/4	Determination of Nitrides in Cast Steels	D. G. Swinburn, et al.
1970	51/6	Residual Stresses in Massive Steel Housings	M. S. Shkalikov, et al.
1970	51/8	Use of Blind Feeder-Heads on Steel Castings	Z. Eminger, et al.
1970	51/12	Recent Development in the Application of X-Ray Television Fluoroscopy Techniques to Foundry Problems	H. T. Hall, et al.
1970	52/1	Dimensional Differences between Pattern and Machine Molded Steel Castings	H. J. Lucking, et al.
1970	52/5	Temper Embrittlement in 2.25 Cr-1 Mo Shielded Metal-Arc Weld Deposits	R. Bruscato
1970	52/9	Mechanical Considerations in Fracture Characterization of Narrow Gap Weldments	C. N. Freed, et al.

Year	Journal / Page No.	Title	Author
1970	52/12	A Toughness Study of Steel Weld Metal from Self-Shielded Flux-Cored Electrodes - Part 1	D. J. Kotecki, et al.
1970	53/1	The Properties of Chromite and its Application in the Foundry	J. M. Middleton, et al.
1970	53/10	Cast-Steel Tube Bends for the Primary Circuit of Pressurized Water Reactors	A. delVillar
1970	53/11	The Formation and Growth of Oxide Inclusions in Austenitic Cr-Ni Steel	A. More
1970	53/13	Physical Metallurgy of Hot Ductility Testing	B. Weiss, et al.
1971	54/1	A Survey of the Application of Exothermic and Insulating Materials in Steel and Iron Foundries	H. Mair
1971	54/7	Sulfur and Phosphorus in Low Alloy Steel Welds Containing up to 6 Percent Nickel	N. Kenyon, et al.
1971	54/9	Improving the Wear Resistance of 13 Percent Manganese Steel	V. N. Kashcheev, et al.
1971	54/10	Reduced Heat-Affected Zone Cracking and Improved Base Metal Impacts Through Sulfide Control with Rare Earth Additions	W. G. Wilson
1971	54/13	Holding Time in the Mold for Complicated Steel Castings	I. S. Skalozub
1971	54/15	The SCRATA Process for the Fumeless Decarburization of Steel by Oxide Injection	SCRATA
1971	55/1	Influence of Shrinkage in Castings on the Mechanism of Burn-on Formation	G. P. Kim, et al.
1971	55/3	Heat Diffusivity of Molding Materials and Solidification Time of Steel Castings	Hans-Joachim Bohm
1971	55/8	Surface Defects in Stainless Steel Castings	I. S. Matusevich
1971	56/1	Fatigue Behavior of Unidirectionally Solidified Castings	J. V. Peck, et al.
1971	56/5	Experience with Argon Flushing of Steel in the Ladle	H. Bachtold, et al.
1971	56/9	Squeeze Casting of Low Alloy Steel	A. A. Ryzhikov, et al.
1971	56/10	Electrochemical Processes at the Mold-Casting Interface and the Formation of Burn-On	N. I. Kovriehnykh
1971	56/12	Diffusion of Tin into Steel	International Tin Research Council
1971	57/1	(Creep) Stress Rupture Properties of Austenitic Steels for Oil Refinery Industries - Cast and Wrought Steels, Part I	H. Zeuner
1971	57/11	A Metric America	D. V. De Simone
1972	58/1	Stress Rupture Properties of Austenitic Steels for Oil Refinery Industries - Cast and Wrought Steels, Part II	H. Zeuner
1972	58/8	Use of Polyvinyl Alcohol as a Core Binder	E. M. Notkin, et al.
1972	58/11	Investigation of an Electric Simulator for the Solidification of Castings	K. Chijiiwa, et al.
1972	58/12	High Alloy Casting Characteristics	Giesserei
1972	59/1	Cast Chromium Steels for Hydraulic Power Plants	H. Ceresny, et al.
1972	59/4	Internal High Temperature Micro-Cracks in Unalloyed Cast Steel	G. Wold, et al.
1972	59/8	Development of Fluidized Mixtures for Steel Castings	D. Yamasaki, et al.
1972	59/9	Heat-Resisting Steel Tube Produced by Newly Developed "Weld Forming Process"	Mitsubishi Heavy Industries Ltd.
1972	59/9	Facilities for the Industrial Application of the Magnetic Molding Method for Mass Production of Castings	A. Wittmoser, et al.
1972	59/10	Mechanical Reclamation of Cold Setting Binder Sands	H. Kunz, et al.
1972	60/1	A New High Strength 13% Chromium Cast Steel of Improved Weldability	V. Cristina, et al.
1972	60/7	The Use of Furan Sands in Heavy Castings	J. R. Marsh
1972	60/10	The Curing Rate of Cement-Bonded Molding Aggregates	G. R. Klose
1972	60/12	Selection of Steels and Alloys for Pressure Diecastings	A. I. Batyshev, et al.
1972	60/15	Research in the U.S.S.R.	V. A. Efimov
1972	61/1	A Literature Survey of High Manganese High Alloy Steels	D. E. Dutcher
1972	61/12	Thermal Treatments of High Strength Steel Castings	F. C. Quigley, et al.
1973	62/1	Casting Steam Turbine Components by Mold Rotation	N. A. Trubitsyn, et al.
1973	62/3	Converter Steelmaking in Foundries	S. N. Mylko, et al.
1973	62/8	Influence of Phase Constitution on Hot Tearing in Chromium-Nickel Steels	S. A. Iodkovskii, et al.
1973	62/10	The Influence of Melting in Basic Arc Furnaces on Defects in Steel Castings	K. Ableidinger
1973	62/12	Pumps for Nuclear Power Stations	A. Frei, et al.
1973	63/1	Controlling Fluid Flow in Casting Integral Turbine Wheels	G. S. Cole, et al.
1973	63/7	Castable Sand Processes	K. E. L. Nicholas
1973	63/8	Properties of High Alloy Steel Castings from Molds with Gasifiable Patterns	Yu. A. Stepanov, et al.
1973	63/11	Heat Resisting Steels and Superalloys	E. A. Marsh
1973	64/3	Strength-Toughness Relationships for Cast Steels	E. M. Gall, et al.
1973	64/7	A Fracture Mechanics Approach to the Development of Realistic Acceptance Standards for Heavy Walled Steel Castings	H. D. Greenberg, et al.
1973	64/10	Heat Resisting Steels and Superalloys, Part II	E. A. Marsh
